

On-demand healthcare at your fingertips.

ONE FIFTY
BRAID

Introducing the Virtual Clinic provided by Cleveland Clinic Canada. On-demand healthcare at your fingertips 24/7.

IN-BUILDING WORLD-CLASS VIRTUAL CARE

At One Fifty Braid, residents can enjoy the peace of mind of world-class virtual healthcare from Cleveland Clinic Canada, a global healthcare leader. From the designated space in the building, residents can connect in minutes with a clinician for a private and confidential consultation with Express Care® Online.

INNOVATIVE & ON-DEMAND

Paired with TytoClinic™, patients can also perform guided medical exams with a clinician to assess their symptoms and have prescriptions sent to the pharmacy of their choice. With this innovative amenity, residents can get a diagnosis for non-emergency medical issues such as the flu, allergies, sprains, strains, rashes, pink eye, UTIs, and more.

ACCESSIBLE TO ALL

All residents of One Fifty Braid over the age of two have complimentary access to the Virtual Clinic and the Express Care Online app that can be downloaded on their personal smart device. Available 24/7 across Canada, excluding Quebec.

Learn more about Cleveland Clinic Canada at clevelandclinic.ca or email expresscarecanada@ccf.org for more information.
